

## PLAN TO EXTEND LIMITS OF CITY

Residents in South and East  
Suburbs Are Signing  
Petition.

### FAST - GROWING SECTIONS

WOULD INCLUDE SUGAR HOUSE,  
IDLEWILD AND OTHERS.

To secure an extension of the city limits from their present southern and eastern extremity so that the districts of Sugar House and the additions of Idlewild, Sunnyside, Westminster Heights and College View will be in the city, a petition has been circulated among the property owners of that part of the county during the last week, and several hundred signatures have been obtained. Over a hundred more are to be added to the list before it is turned in to the city officials some time next week.

The residents of the southeast bench ask in their petition that the limits be extended to Twelfth South, east to the eastern line of the state prison grounds, south to the southern end of Idlewild addition and east to Twenty-first east.

The rapid growth of that district in the last few years has occasioned the petition. The residents have been able to see the benefits which they would derive from being in the city, both as regards property values and property protection, and they are hoping that the city officials will see the advisability of letting them in.

In Sugar House the growth in the last few years has been marvelous, hundreds of new houses having been built. On the east bench, in the new additions, the building going on now and promised for the future by the recent sale of hundreds of building lots has been considered a sufficient warrant to ask for the extension of the limits of the city. The work of grading all the new additions is at its height.

The expense to the city in extending water mains would be very nominal, it is argued, because of the fact that the large mains leading to the city from Parley's canyon course the new district.

## S.S.S. PURELY VEGETABLE

The absolute vegetable purity of S.S.S. has always been one of the strongest points in its favor, and is one of the principal reasons why it is the most widely known and universally used of all blood medicines. A great many of the so-called blood purifiers are really nothing more than strong mineral mixtures which act so unpleasantly and disastrously on the delicate membranes and tissues of the stomach and bowels, that even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S.S.S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and barks, each of which is in daily use in some form by physicians in their practice. Years of work and research have proven S.S.S. to contain everything necessary to purify the blood and at the same time supply the system with the purest and best tonic effects. S.S.S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles, and it leaves the system in perfect condition when it has purified the blood. Book containing much valuable information on the blood and any medical advice desired sent free to all who write.
